About

Dylan van Dael is a boundary-pushing musician and producer who fuses sound, story, and emotion into immersive experiences. Born in Colombia and shaped by Berlin's creative pulse, he's worked with Joost Klein, Naaz, Tantu Beats, O.G Pezo, and Lucio101, while playing major stages like Lowlands and Pinkpop.

starting 2024 he steps into his own artistry with "Dreampop", merging music and digital art. Enter Pokka, his 3D-animated alter ego, embodying themes of vulnerability and self-reflection. Created with Mick Thörig, Pokka was showcased at Dutch Design Week.

His debut single "Dreamliner" blends indie-R&B with digital textures, drawing from Sufjan Stevens and Frank Ocean.
